CASHMERE 101

THE TOUCHTEST

"Cashmere should feel as soft as a kitten," says Kathryn Finney of TheBudgetFashionista.com. "When testing for softness, grab the fabric and release it. It should return to its original shape."

READ LABELS

Check the fiber content for blends. Cashmere mixed with silk is the warmest and least itchy.

KEEP IT CLEAN

"Dry-cleaning isn't good for cashmere," says Finney. It's actually better to use a mild soap like baby shampoo or a specialty wash. Dry flat on a towel. [The Laundress for J.Crew Cashmere Wash, \\$18, jcrew.com](#)
